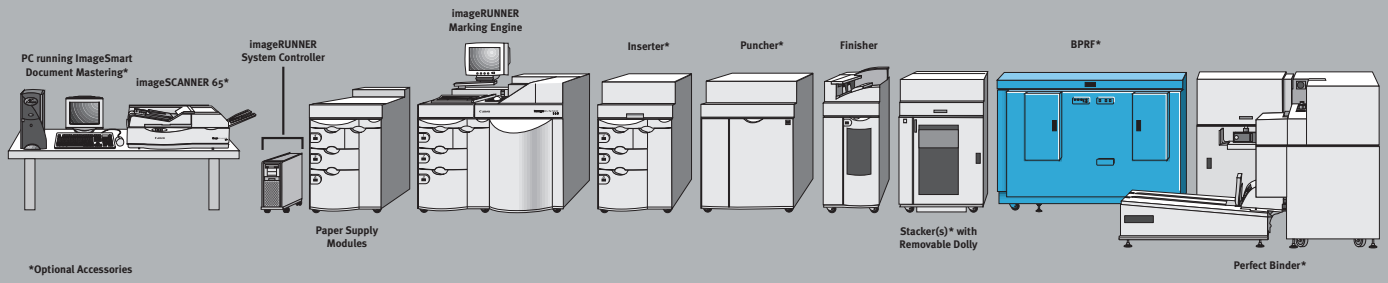
imageRUNNER® Pro 150+

Bourg Perforating Rotating Folding Unit (BPRF)

for Canon Networked Production Systems

Transforms sheets into **SIGNATURES** for in-line **PERFECT BINDING.**



Add Value to Your Perfect Binder

Configure your in-line Perfect Binder for the imageRUNNER® 110/110M/Pro 150+ with a Bourg Perforating Rotating Folding Unit (BPRF) and see your productivity soar. The BPRF transforms sheets into signature booklets, allowing two-up images to be sent to the Perfect Binder. The result is less paper waste and more books produced per hour, thereby reducing overall printing costs and job time as compared to using the Perfect Binder alone.

A Unique Process

Located between the Stacker and the Perfect Binder, the BPRF creates signature booklets through a special process of perforating, rotating, and folding. As each sheet exits the Stacker and enters the BPRF, it is immediately perforated with a micro perf across its center. Next, the sheet is rotated ninety degrees and folded on the perforation. The printed, perforated, folded sheet is then sent to the Perfect Binder where all the signatures are stacked and, ultimately, bound into a finished book that's ready for trimming.

Cost-effective

Books created using the BPRF save you both precious time and paper. By allowing twice as many images to be printed on each sheet, the BPRF eliminates excessive page-trimming. The folded signature booklets also dramatically increase the number of books that can be bound by the Perfect Binder in a given period of time, thus producing more finished books without incurring additional paper or labor costs.

Always an Option

The BPRF can be purchased together with an imageRUNNER 110/110M/Pro 150+ and a Perfect Binder, or it can be added later as your business demands increase. The modular design of the imageRUNNER 110/110M/Pro 150+ provides the configuration flexibility you need to succeed in the marketplace today.

Specifications

Power Requirements:	120V AC, 60Hz
Power Consumption:	920 Watts
Dimensions (H x W x D):	51" x 64" x 31" (1290mm x 1620mm x 780mm)
Weight:	562 lb. (255kg)
